In side-by-side comparisons with consumers and strategic partners, most people can "Hear the Difference(TM)" in the sound quality and clarity of LINX AUDIO.

Able Planet installs patent-pending LINX AUDIO(TM) into audio and communication devices to provide richer sounding music and enhanced speech clarity for TV, portable DVDs, audio books, CD, MP3 or iPod players, and assistive listening devices. Enhanced sound quality and clarity is made possible by creating harmonics that are not masked by low frequency sounds, filtering undesirable frequencies or noise, and soft clipping distortion. Additionally, the enhanced audio signal increases the perception of loudness without increasing volume, enabling listeners to achieve full rich sound at lower volumes, which
